

Best answer: How to load a3 sheet in revit?

Description

1. Open the project.
2. Click View tab Sheet Composition panel (Sheet).
3. Select a title block, as follows: In the New Sheet dialog, select a title block from the list.
4. Enter information in the title block of the **sheet**.
5. Add views to the sheet.
6. Change the default number and name that Revit assigned to the **sheet**.

Subsequently, how do you make an a3 **sheet** in **Revit**?

Likewise, how do you change the paper size in **Revit**?

Also the question is, how do I insert a sheet into another Revit?

1. Open the project where you want to reuse existing views or sheets.
2. Click Insert Import panel Insert from File drop-down (Insert Views from File).
3. In the Open dialog, navigate to the project that contains the desired views or sheets, select it, and click Open.

Similarly, how do I add a viewport to a sheet in Revit? There are several ways to add views to a sheet in Revit. You can drag and drop any View/Schedule/Legend from the Project Browser onto a **sheet**. As you move the cursor over the sheet in the drawing area, a viewport for the selected view moves with it. Click to place the viewport in the desired location.

1. Open the project.
2. Click View tab Sheet Composition panel (**Sheet**).
3. Select a title block, as follows: In the New **Sheet** dialog, select a title block from the list.
4. Enter information in the title block of the sheet.
5. Add views to the sheet.
6. Change the default number and name that **Revit** assigned to the sheet.
