Frequent question, can you copy **layouts** in **AutoCAD**? To quickly copy a layout, you can right-click a layout tab and select Move or Copy and then choose the Create a copy checkbox option (see image below) before hitting OK.

People ask also, how do I repeat a layout in **AutoCAD**?

You asked, how do you **copy** layout properties in AutoCAD? Right click on the layout tab, move or copy, create a **copy**. I would use ZOOM > OBJECT to center the "box" in the layout/viewport,

then either change the layout scale, or change to a known zoom factor. Either way, the “Objects” that were zoomed will remain centered in the view.

1. At the bottom of the drawing area, right-click the Layout tab to **copy**.
2. Click Move or Copy.
3. In the Move or **Copy** dialog box, select the layout to copy.
4. Select Create a copy.
5. Click OK. Notice that three things happen:
6. Click the new layout tab to activate it.

How do you copy a layout?
