Millions of engineers and designers in tens of thousands of companies use AutoCAD. It is one of the most widely used design and engineering programs. It is used by many different professions and companies around the world because of its wide range of features and excellent functionality.
And here is the answer to your How to create a text box in autocad? question, read on.

Introduction

Start the Multiline Text command, and pick a spot in the drawing. Drag the cursor over to create a â€˜rectangleâ€™ to represent the area you want your text in, and pick the other corner. As soon as you pick the second point, the full Multiline text editor will appear. Type your text, and press OK when done.

You asked, how do you draw a text box in AutoCAD? Select the text, at the bottom of the â€œTextâ€• panel in the â€œPropertiesâ€• dialogue there is the option â€œFrame textâ€• which by default is set to â€œNoâ€• change this to â€œYesâ€• to frame the text. The text can now be edited and the surrounding box will automatically update.
