Likewise, how do you create a block in Revit?

Similarly, how do you make your own **title block**?

1. In a new file with a scale of 1:1, **create** the elements of the title **block**, including lines, rectangles, graphics, and text.
2. Select all the title block elements, and then select Modify > Create Symbol.
3. Create a new record format as described in Creating Record Formats.

Furthermore, how do you add a title **block** to a sheet in **Revit**?

1. Open the sheet.
2. Click View tab Sheet Composition panel (Title Block).
3. On the Properties palette, select the desired title **block** from the Type Selector.
4. Click in the drawing area to place the **title** block on the sheet.

Capitalize major words of the **title**. Place the main title and any subtitle on separate double-spaced lines if desired. There is no maximum length for titles; however, keep titles focused and include key terms. Place one double-spaced blank line between the paper title and the author names.

## How do you draw a perfect title block?

## How do you add a title line in Revit?

1. On a sheet, select the viewport to which you want to apply a different view title type.
2. On the Properties palette, click Edit Type.
