Millions of engineers and designers in tens of thousands of companies use AutoCAD. It is one of the most widely used design and engineering programs. It is used by many different professions and companies around the world because of its wide range of features and excellent functionality. And here is the answer to your How to delete part of a hatch autocad? question, read on.

Introduction

- 1. Double-click the hatch pattern (not the hatch boundary).
- 2. The Hatch Editor will open. Click Pick Points.
- 3. Type S in the Command line and press Enter.
- 4. The cursor will turn into a pickbox. Select each of the internal areas where you want to remove the hatch.

You asked, can you edit a hatch in **AutoCAD**? On the **Hatch** Editor ribbon, expand the Options panel and select Separate Hatches. The result is that each hatch area is now its own **hatch** object and can be edited and changed separately.

People ask also, how do you cut a hatch in half in AutoCAD?

- 1. Remove existing hatch.
- 2. Select area you want to split and right-click and choose Isolate Objects>Isolate Objects.
- 3. Apply different hatch to two areas.
- 4. Right-click in the drawing and choose Isolate Objects>End Object Isolation.

Also the question is, how do you split a hatch?

- 1. Right click on the hatch you want to separate.
- 2. Choose generate boundary.
- 3. Erase the hatch.
- 4. On the boundary, create a line where you want the hatch to be split.
- 5. Create a new hatch using the boundary that has a line for the split.

Furthermore, how do you edit an existing hatch pattern?

- Click File > Options > Application Options > Drafting > Hatching to display the Hatching page of the Options dialog. To create a new user-defined **hatch** pattern, click the Create button to display the Edit **Hatch** Pattern dialog.
- 2. Use the dialog to create/edit a hatch pattern.

To modify the extents of an associative hatch object, select its boundary object or objects and edit them as you would any other object. Tip: To view all objects in a complex boundary, expand the Boundaries panel and click Display Boundary Objects.

How do you control hatch in AutoCAD?

How do I remove the hatch behind text in AutoCAD?
