Similarly, how do I get 2D elevation in SketchUp?

1. Camera > Parallel Projection. To change the view from a perspective to a 2D view, go to â€œcameraâ€• and select â€œparallel projectionâ€• from the dropdown menu.
2. Camera > Standard Views > Front.
3. Default Tray > Styles > Edit.
4. Edge Settings.
5. Face Settings.
6. Modeling Settings.
7. Shadows.
8. View > Fog.

Quick Answer, how do I create an elevation in SketchUp? Click the â€œCameraâ€• button and scroll down to the â€œStandard Viewsâ€• menu to select the view you wish to print. You will need to browse through these to find out which one corresponds to the elevation you wish to make.

Correspondingly, how do you show **elevation** in 2D drawings?

1. Draw an **elevation** line in the drawing.
2. Select the **elevation** line.
3. Click Building Elevation Line tab Modify panel Generate Elevation.
4. Select the type of elevation object you want to create:
5. For Style to Generate, select a style for a 2D elevation.

Additionally, how do you **make** a 2D drawing in SketchUp?

1. Go to **sketchup**.google.com to download either the free or pro version of **SketchUp**.
2. Open SketchUp and make sure the standard views are on your toolbar.
3. Click on the icon in the standard view toolbar that shows the roof of the house.

4. Begin drawing your 2D element.

Select File > Export > 2D Graphic. An export dialog box appears. Navigate to the location where you want to save your image. (Optional) In the Save As box, type a name for your image file.

What is 2D and 3D elevation?

A 2D or 3D elevation is created from the elevation line properties and the selected objects in the building model. The elevation is linked to the building model. If you make changes to the building model after you create the elevation, you can update the elevation to reflect the changes.

How do you create an elevation?

1. Open a plan view.
2. Click View tab -> Create panel -> Elevation.
3. The cursor appears with the elevation symbol.
4. On the Options Bar, select a view scale.
5. Place the cursor near a wall, and click to place the elevation symbol.
