How do I resize a viewport in Revit?

Right-click the activated view, and click Pan Active View. Drag the cursor to pan the view. Change the scale of the view. On the View Control Bar, for Scale, select the desired scale.

How do you crop a 3D view in Revit?

Why is scope box greyed out Revit?

There are some situations where the Scope Box property of a view is greyed out â€“ so you cannot assign a Scope Box to the view. The answer may be to do with the Crop Boundary â€“ and it may not be obvious, especially if the crop boundary is hidden.

How do you change the size of a scope box?

After a scope box is created, you can change its size and position in a 3D view. In a plan view, click View tab Create panel (Scope Box). On the Options Bar, enter a name and specify a height for the scope box, if desired.

How do you show all scope boxes in Revit?

https://caddikt.com/

On the Properties palette, for the Views Visible property, click Edit. The Scope Box Views Visible dialog lists all the view types and view names in the project. It shows in which views the scope box is visible. Revit calculates the visibility of the scope box when you create it and subsequently change its extents.

How do you remove a scope box?

Just Click Delete Unused to delete all unused Scope Boxes â€“ those which are not used by any views, levels, grids, or reference planes. If you would like to select exactly which Scope Boxes to delete instead of all unused you may also check the box before each Scope Box and use the Delete Checked button.

Which elements can a scope box can control?

Scope boxes are used to control the extents of elements like grids, levels and reference planes. Each of these elements can be assigned to a specific scope box, limiting the 3D extents to the dashed green line limit.

Where is the hidden scope box in Revit?

The selected scope box is no longer visible in the view. (The scope box is still visible in other views.) Open the view in which one or more scope boxes display, select a scope box, and do either of the following: Click Modify | Scope Boxes tab View panel Hide in View drop-down (Hide Category).
