

Quick answer: How to add background mask to text in microstation?

https://caddikt.com/

Description

With this article you will have the answer to your Quick answer: How to add background mask to text in microstation? question. Indeed Microstation is even easier if you have access to the free Microstation tutorials and the answers to questions like. Our CAD-Elearning.com site contains all the articles that will help you progress in the study of this wonderful software. Browse through our site and you will find different articles answering your different questions.
The use of parametric design in Microstation makes it a powerful tool for designers and engineers. The designer can observe the impact of adjustments on neighboring components or even on the entire solution. This makes it quick and easy for designers to identify and solve problems.
And here is the answer to your Quick answer: How to add background mask to text in microstation? question, read on.

Introduction

Beside above, how do you mask in MicroStation?

Also, how do I change the background in MicroStation? To change the background color go under Settings > Color Table. The Modify Color dialog box will come up. Once this is up select the desired color and then click OK. Under the Color Table dialog box select Attach, and this will change the background color (you can already see the new background color on the B-square).
