

# Quick answer: How to change measurement in sketchup layout?

## Description

Starting with this article which is the answer to your question Quick answer: How to change measurement in sketchup layout?.CAD-Elearning.com has what you want as free Sketchup tutorials, yes, you can learn Sketchup software faster and more efficiently here.

Millions of engineers and designers in tens of thousands of companies use Sketchup. It is one of the most widely used design and engineering programs and is used by many different professions and companies around the world because of its wide range of features and excellent functionality.

And here is the answer to your Quick answer: How to change measurement in sketchup layout? question, read on.

## Introduction

In SketchUp Desktop: You can **change** units in SketchUp (desktop) by going to Window > Model Info > Units. This will automatically change all of the dimensions in the model to match.

Beside above, how do I **change** to inches in **SketchUp layout**?

1. From the Format drop-down list, select Fractional or Decimal.
2. Select a unit of **measurement**, such as inches, feet, or meters, from the second Format drop-down list.
3. From the Precision drop-down list, select how precise you want the units to be.

People ask also, why can't I **change** measurements in **SketchUp**? SketchUp doesn't work that way. If you want to change the dimensions after you've created the rectangle, select an edge and use the Move tool to move the desired distance or use the Scale tool to resize it.

Also, can you edit measurements in **SketchUp**? After you start creating a 3D model in SketchUp, you can view and change the units of measurement for the model as a whole via the Model Info window.

Frequent question, how do I change dimensions to inches in layout?

1. Click the Tools menu and click Options.
2. Click the Layout View tab.
3. Adjust Page units to the desired unit. The status bar displays the pointer position in the chosen units.
4. Click OK.

## How do you change feet and inches in SketchUp?

## How do I set cm in SketchUp?

You can change the measurement units in SketchUp by going to Window > Model Info > Units. Choose a preset like Architectural, Engineering, or Fractional. Or if you want to customize your units, choose Decimal to pick any metric or imperial unit for length, area, and volume.
