

Quick answer: How to create a scope box in revit?

Description

In a plan view, click View tab **Create** panel (Scope Box). On the Options Bar, enter a name and specify a height for the scope box, if desired. Tip: You can also change the name of the **scope box** after creating it. Select the scope box, and on the Properties palette, enter a value for the Name property.

Considering this, how do you use the **Scope box** in Revit 2020?

Quick Answer, how do you add a **box** in **Revit**?

You asked, how do you edit a **scope** box in Revit?

You asked, how do I show a Scope Box in 3d in **Revit**? Looks like your scope box is pinned and you're unable to select it. Bottom of your Revit screen select the pin icon so there is no longer a red x and your problem will be fixed. If that icon has an X through it then any element you've pinned you will not be able to select.

Why is scope box option greyed out in Revit?

There are some situations where the Scope Box property of a view is greyed out " so you cannot assign a Scope Box to the view. The answer may be to do with the Crop Boundary " and it may not be obvious, especially if the crop boundary is hidden.

How do I make my scope box visible?

1. Open a view in which you can see the scope box.
2. Select the scope box.
3. On the Properties palette, for the Views Visible property, click Edit.
4. Locate the appropriate view row (for example, South Elevation), and find its value in the Override column.
5. Click OK.

How do I Create a generic box in Revit?

How do I make a generic box in Revit?

What is a scope box?

Scope boxes are used to control the extents of elements like grids, levels and reference planes. Each of these elements can be assigned to a specific scope box, limiting the 3D extents to the dashed green line limit. In the example below we assign all the grids to a scope box.
