

Quick answer: How to wrap text in room tags in revit?

Description

CAD tip # 6853: To **wrap** a text line (new line) in a Revit table, use the keyboard shortcut SHIFT+ENTER, or copy (paste) a wrapped text pre-formatted in MS Word.

Beside above, how do you **wrap** text in a title in **Revit**? Fill out the Title on Sheet field in the view's properties and do a Ctrl+Enter at the point where you want the **text** to wrap. It won't work if you try that in the View Name field, or if you edit the view name on the sheet. It is antiquated, but it works!

Correspondingly, how do I create a custom room tag in Revit?
