

Revit cant tag room?

Description

First in your model make sure "Rooms" are turn on under Visibility Graphics > Model tab. Then turn on Room tags under the annotation tab. Then you will need to find which linked file created the rooms and room tags so that you can turn them on.

Also the question is, how do I enable room tag in Revit?

1. Open a plan or section view.
2. Click Architecture tab Room & Area panel Tag Room drop-down (Tag Room).
3. On the Options Bar, do the following: Indicate the desired orientation of the room tag.
4. Click in a room to place the room tag. As you place room tags, they align with existing tags.

Also know, why are room tags not showing up? Right-click atop the room and Unhide the room element to see if your Room Tag appears. If you find that the room was not hidden in the view and the tag does not show up after placement, then you may have some Plan Region interferences, which is worth investigating.

Additionally, how do you tag all rooms in Revit? Open the view in which you want to tag elements. (Optional) Select one or more elements to tag. If you do not select elements, the Tag All Not Tagged tool will tag all elements in the view that are not already tagged. Click Annotate tab Tag panel Tag All.
